**Title:** AMORPHOUS SUBSTANCE AND MEDICAL COMPOSITION CONTAINING AMORPHOUS SUBSTANCE  
**Abstract:** PROBLEM TO BE SOLVED: To provide an additive-free amorphous cefditoren pivoxil (an amorphous antibacterial agent). SOLUTION: An additive free, amorphous cefditoren pivoxil of high solubility is obtained by a process selected from the organic solvent precipitation, the spray-drying, freeze-drying or crushing. As it is free from additives, the amorphous cefditoren pivoxil can be formulated to an oral medicinal composition by admixing the active ingredient to desired amounts of excipient, binder, disintegrator, colorant and the like.
